

High Performance
Traditional & Contemporary
Composite Doors

The Definitive
collection

What is a composite door?

Your front door is one of the most important features of your home, so why not create a stylish entrance that you, your guests and passers-by can admire. Come home to a centrepiece that is strong, safe and secure, functional for everyday use, energy efficient and pleasing on the eye.

Our composite doors incorporate a combination of the finest quality components that all purposefully work together to create a high performance door. The surface of the door is made from GRP (Glass Reinforced Polyester), which is considerably stronger than PVCu.

The Definitive Collection composite door is built to last and will easily stand up to the challenging demands of the British climate.

From 15th June 2022, new building regulations relating to Windows and Doors apply across the UK for both replacement and new-build installations. The 'U' Value requirement for replacement products differs to that of new build. Each door depending on design and glazing differs in 'U' value. For any new build projects once you have chosen your new door please consult with your installer to make sure the correct 'U' value is being used for your SAP calculation which in turn determines your energy performance certificate.

You can be assured that all of the Definitive Collection Composite Doors achieve excellent 'U' Values, with all doors performing to the new regulations for replacement installations. The 'U' value is a measurement designed to measure heat loss through products such as windows and doors, the lower the value the more energy efficient the product becomes.

Our composite doors are all bespoke and are individually made to measure with your own personal specification and colour/design choices. Our doors are covered by a comprehensive guarantee so please speak to your installer for further details.

“Raising security standards with an uncompromising approach to designing out crime”

Who we are...

The philosophy underpinning The Definitive Collection is driven by our desire to offer you products that have been designed and manufactured with a 'no compromise' attitude.

Regardless of the style of property you live in, we are sure to have a perfect solution to meet your design aspirations. The Definitive Collection offers you a comprehensive choice of products either from our classically styled sculptured range or from our more contemporary styled chamfered range.

High performance solutions are available to suit any application, whether you are looking for a sympathetic door replacement for your 18th century farmhouse, or a more contemporary look for a modern house or city centre apartment. You can even have your door in any colour you want! Your decision...Your choice...

The Definitive Collection has built a strong reputation over the last 30 years for taking an uncompromising approach to the components we use. Unlike windows, a front door is generally used several times every day and therefore the locks and furniture need to be of the highest quality. We only fit premium branded products that we are confident will last year after year standing up to the toughest conditions with our changing British climate.

High Quality Materials

Made In Britain

Energy Efficient

Stylish

Strong & Secure

One philosophy... Two choices...

"VEKA is the most specified profile in the world"

As well as choice of style, colour and glass, you can also choose from one of our two frame design options to create that perfect match. The frame designs are also available in a range of coloured and wood-grained foils.

Composite Door Features

- 1 Stormguard low level aluminium thresh with optional Document 'M' wheelchair ramps
- 2 Authentic timber looking PVC weather-bar
- 3 GRP compression moulded skins
- 4 **Polyurethane thermally insulated core. The thermal performance of this product is far superior to timber**
- 5 Engineered timber frame
- 6 Adjustable hinge
- 7 Wool-pile weather seal
- 8 Galvanised Steel reinforcing
- 9 Black low line gasket
- 10 Choice of Sculptured or Chamfered outer-frame
- 11 2mm PVC Grained edge-banding
- 12 Foam bung reduces perimeter air circulation from drainage holes

the outer skin...

The outer skin is compression moulded using Glass Reinforced Polyester. This creates a high definition grain effect that cannot be achieved using standard panel technology.

the core...

The core is filled with an insulating core of 100% CFC-free polyurethane. The performance of this product is exceptional, outperforming timber nine times.

the perimeter...

The core and timber surround is protected by a perimeter of water resistant polymer instead of timber. Rather than purely relying on treated timber, this product ensures that no water can penetrate to the core. Being a polymer, it has none of the drawbacks of timber.

Thresholds

We offer a wide range of thresholds for our composite doors.

Our aluminium 44mm rebated threshold carries the best weather performance and is available in either silver or gold. The shape of this threshold mirrors either the chamfered or sculptured frames providing a suited product.

We also offer two different sizes of PVCu threshold.

Our lowest profile threshold is available in either silver or gold and is suitable for wheelchair access using the optional ramps that can be fitted both internally and externally.

Safe and Secure

As one of the oldest international brands, Yale is among the most respected names in the lock industry, with millions of Yale locks in use worldwide.

You will be comforted to know that our Composite doors are fitted with the worlds leading lock brand Yale as standard with the exception of our contemporary door range which are fitted with Winkhaus key-wind locks. Both Yale and Winkhaus products are accredited with 'Secured by Design'.

The Winkhaus 'Thunderbolt' key-wind lock is used in conjunction with our stainless steel bar handles or any door supplied without a lever handle. The euro cylinder (where you put the key) is positioned higher up the door. When the door is closed the lock will engage on the latch only. To lock or re-open the door from outside you will need to use the key.

Latest technology

The Definitive Collection offers you the latest technology in high security cylinders to provide the ultimate resistance against all known attack methods.

The euro cylinder lock (which is where you put your key to lock the door) is the single most important safety feature on any door. The Yale cylinder carries the highest accreditation available in the UK, All of which is demonstrated on page 6

The world's favourite lock

Our composite doors all come with **5 keys as standard**

Due to supply chain disruption we reserve the right to change some of the products featured with an equivalent specified product without prior notification

Tried, tested and then some...

Yale locks are the highest accredited range of euro cylinder locks currently on the market. Tested regularly and independently by locksmiths and security professionals - the Yale lock range has been proven to be secure.

SNAP SECURE

ANTI BUMP

ANTI DRILL

ANTI PICK

Raising the standard TS007

Anti-Snap, sacrificial front section

Secured by Design only applies to Yale and Winkhaus lock Strips and Yale 3 star cylinders.

3 Star Rated
The Highest Available

Precision engineering high security door cylinder

Anti-Pick, Anti-Bump, Anti-Screw, Anti-Pull and Anti-Drill

Enjoy total peace of mind with the Yale £1000 guarantee

Across the world, millions of people protect everything they care about - their families, homes and personal belongings - with Yale, the best known and most respected name in home security.

Designed, developed and tested by the UK's most trusted lock company, the Yale Platinum 3-star cylinder is so secure that if your home is broken into during a burglary attack, Yale give you £1000* to apologise for the inconvenience caused!

£1000

ANTI-SNAP GUARANTEE

*All Yale Cylinders must be registered within 30 days of installation at help.yale.co.uk

Anything but standard.

We are Document Q approved! But what does this mean ?

In 2015, changes were made to Building Regulations which are outlined in Approved Document Q.

All New Build homes started after October 2016 must meet the enhanced security requirements of Document Q. (ADQ does not apply to any extensions, Sun rooms or Conservatories)

To comply with Document Q, our doors must by law feature upgraded security enhancements via the cylinder, slab and glass. This is an upgrade available on our doors, they do not come Document Q approved as standard.

If you are unsure if this applies to your door then you must speak to a Registered Building Inspector.

Did you know... Over 70% of all burglaries are accessed through a door, yet there is no minimum security standard in the UK for replacement doors. Rest assured that all Definitive Collection doors are fitted with Yale or Winkhaus multi-point locks and 3 star high security euro cylinders as standard.

Smart Ready! SensCheck™. It just makes sense.

Is my home safe and secure?

Know the answer, at home or away with Yale **SensCheck™** Door Sensors.

Yale **SensCheck™** Sensors put you in control of your home security.

Monitor the status of your doors from anywhere at any time via the Yale Smart Living Home App. Receive notifications and tamper alerts straight to your smartphone, or chime notifications when the status of your composite door changes.

The ultimate in Home Security

The Yale **SensCheck™** Door Sensors can be monitored through the Yale Home App, giving you total peace of mind and reassurance that your home is secure.

Easy Set-up

Wireless

Real-time Notifications

Live Status

Geo-fencing

Arm/Part Arm

Using **SensCheck™** Sensors, you can check to see the status of your home, from anywhere, anytime.

Yale **SensCheck™** Sensors are simple to install in compatible smart doors, and are easy to set up and control through the Smart Living Home App.

Benefits of **SensCheck™** include:

- Sensor status notifications and tamper alerts
- Geo-fencing notifications
- Part Arm functionality
- Chime notifications
- Integration with Amazon Alexa, Google Assistant and Philips Hue
- BSI IoT accredited
- Ability to upgrade to the full Yale Smart Security System

SCAN THE QR CODE TO FIND OUT MORE

The Yale Sync Hub is required for your **SensCheck™** sensors to connect to the Yale Smart Living Home App. Receive notifications when your sensors are triggered through your App, so you're always aware of the status of your home.

Keep in control of your **SensCheck™** door sensors with the Yale Sync Hub

If you already have a Yale Sync Hub installed as part of the Sync Alarm, there's no need to purchase another one, as the Sync Hub can support up to 40 alarm accessories, including **SensCheck™** Sensors.

If you don't already own a Yale Sync Hub, we suggest choosing the **SensCheck™** Door Sensor Kit. Only one Sync Hub is needed per household.

Yale Yale Sync Hub & **SensCheck™** Specifications

Living Life in Colour...

Let your imagination run free and enhance your Composite Door with our unparalleled range of colour options.

Our **Standard** range comprises of five colours and our **Premium** range adds another seven stunning colours.

To truly let your imagination run wild, you can specify your composite door in any colour you want with our **Bespoke** painted range.

“Our composite doors can be coloured both sides”

Bespoke RAL colours displayed are a representation only, we cannot guarantee an exact colour match due to the limitations of the photographic, reproduction and printing processes.

“Available
in over
1,000,000
colour
combinations”

Bespoke Painted Colours*

The Definitive Collection Composite Door range can be supplied in any colour for a small premium. All we need is a RAL colour or recognised BS reference and your new door will represent your individuality.

A Definitive Collection installer will guide you through the process to help create your perfect door. All doors are supplied using a Satin finish.

The colours of the doors and glass shown in this brochure are for guidance only and may vary owing to the limitations of the photographic reproduction and printing processes.

*Please note, all bespoke painted colours carry a 5 year colour fast guarantee. Bespoke RAL colours displayed are a representation only, we cannot guarantee an exact colour match due to the limitations of the photographic, reproduction and printing processes. It is advised due to print limitations that you view your chosen RAL colour on a RAL swatch with your installer prior to ordering.

“Did you know, you can
also have the outer frame
to match the door leaf?”

THE TRADITIONAL COLLECTION

The Traditional Collection incorporates historical design classics that are sure never to fade in their appeal. Homeowners will feel comfortable in their choice of elegant styles rich in variety, colour and heritage. Complimented by classical glass designs and furniture the Traditional Collection will stand the test of time.

Custom Etch Letters & Numbers

The Definitive Collection of Custom Etch Letters and Numbers is available in a range of 6 styles and 4 fonts, ranging from traditional to contemporary and make a striking statement whether used in the door glass itself or in the sidelights/toplights.

SCAN THE QR CODE
TO FIND OUT MORE

We offer standard sizes for the composite doors featured in this brochure. We also offer a custom size service for use in Toplights and Sidelights.

All our custom etch designs are produced using sandblast techniques and with a computer designed 'resist' cutter, we can ensure perfectly created letters and numbers every time.

Once the design is created, it is then incorporated within a high performance insulated glass unit using warm edge spacer and low E glass.

For areas where extra security may be required, we also offer the range in our Security+ laminated glass units.

Please Note: All our custom etch letters and numbers are created using sandblasting techniques and may look different to screen printed 'etch-effect' glass. We recommend any glass units which need to match visually, are ordered at the same time to ensure consistency.

Specifying your Custom Etched Letters and Numbers is as easy as **1... 2... 3...**

1. Choose your Door Style...

2. Choose your Design Style...

3. Choose your Font Style...

Stable door Benefits

The Definitive collection stable door surpasses others on the market by not only meeting but exceeding the highest industry standards in terms of quality, durability, and performance

Benefit	Our Stable Door	Other Stable Doors
Lockable door leafs via concealed shootbolt removing the need for a face mounted dead bolt or internal rack bolt	✓	✗
Colour matched, low profile, thermally broken meeting rail as standard	✓	✗
Retractable latch allowing the door to be operated without depressing the handle (hands free operation)	✓	✗
Roller latch facility on lower leaf removing the need for a key or thumbturn operation to secure in closed position	✓	✗
Every stable door manufactured is installed and operated in a steel rig with footage captured for quality and assurance purposes	✓	✗

The Definitive
collection

www.thedefinitivecollection.co.uk

Thank you for choosing your new Definitive Collection Composite Door(s)

To keep the pristine look of your new door please observe these simple instructions:

Cleaning your door every 4-6 weeks

Part of the door	Cleaning	Finishing
Door Leaf	Keep the grime & grit away with a warm damp cloth (do not use washing up liquid) dry with a micro-fibre cloth.	
Door Frame	Wash with warm soapy water with a soft cloth.	Stubborn stains will demand a specialised PVC-U cleaner (not to be used on the painted door leaf)
External Glass	Wash with warm soapy water with a soft cloth.	Finish with a proprietary glass cleaner
Laded Glass	Wash with warm soapy water with a soft cloth.	Finish with a proprietary glass cleaner (some oxidation may naturally occur)
Hardware (handles, knockers & letters)	Wash with warm soapy water with a soft cloth.	Use a micro-fibre cloth to shine

CAUTION! DO NOT USE

Washing up liquid or detergents, abrasive cleaners or scouring pads, high pressure or steam cleaners, bleach, solvents (spirit or thinner), or adhesives. Before cleaning your door remove all jewellery including watches to avoid scratches.

Thank you for choosing your new Definitive Collection Composite Door(s)

To maintain the pristine look of your new door please observe these simple instructions:

Maintain your door every 6 months

Part of the door	Recommended Maintenance	Notes
Hinges	Keep them at their best by lubricating with a little light engineering oil e.g. 3 in 1.	Every 6 months
Euro Cylinder Locks (where you cut the key)	We recommend a PTFE based lubricant. A small amount of lubricant should be applied to the key and then inserted into the cylinder. Rotate the key a couple of times.	Every 6 months
Hardware (handles, knockers)	Just add a touch of engineering oil on all moving parts.	Especially important if you live near the coast or by a building or industrial site

Yale The world's favourite lock since 1843

IMPORTANT!

Please do not lubricate the lock cylinder. Make sure the key & handle have both been engaged by pulling the handle up every time you shut the door.

The Definitive
collection

Confidence comes from knowing that The Definitive Collection range of composite doors are designed and engineered with the very highest standards of quality, security and reliability in mind.
